

Beaulieu artificial grass requires practically no maintenance. However, this maintenance advice will help you keep your lawn in great shape for years to come.

Cleaning

Use a hose to rinse off dust, dirt and debris. If animal feces are dropped on the lawn, remove them and clean the area with a diluted disinfectant.

Brushing

The grass blades may be temporarily flatter due to high foot traffic on the grass. Brush them back and add some silica sand infill to restore the original healthy and natural look.

Special measures - What to do in case of...

High temperature

Exposure to temperatures over 60°C may be harmful for the grass fibers. Be careful with glass light reflections or cigarettes to keep your lawn as fabulous as always.

During hot summer days, the temperature of the grass can become quite hot if directly exposed to sunlight. Retain humidity and freshness by sprinkling the grass with water and adding silica sand infill.

Weeds and fungi

Weed seeds may land on your artificial grass, carried by the wind or insects. In exceptionally damp circumstances, fungi may appear. To eliminate weeds and fungi and prevent them from growing in the future, sprinkle the surface with a weed killer or a soft fungicide diluted in water. Existing ones can be easily removed by hand.

HOMEOWNER OBLIGATIONS

To maintain warranty coverage and ensure fast and easy warranty service, the homeowner is responsible for the following:

- Keep 2 sq. ft. (0.2 m²) of excess unused carpet remnant after installation for testing purposes
- Keep and be able to provide the original sales receipt or documentation illustrating proof of purchase and installation date of the carpet
- Make sure the carpet is installed according to our Artificial Grass Carpet Installation Guide
- Keep a list of products used to clean the carpet
